

## The Dell

A well-appointed modern residential home for adults with learning disabilities, challenging behaviours and epilepsy.

- **Can accommodate up to four service users**
- **Wide range of activities, education and learning available to all service users**
- **NVQ-trained staff providing high quality care and support**

The Dell is a newly-built, prestigious property that was opened in early 2003 to provide care to up to four adults with a range of learning disabilities. The current residents enjoy an active lifestyle, participating in a wide range of activities, including mainstream and specialist college courses, recreational activities in and out of the home and generally enjoy life to the full, developing social and independent living skills each day.

Situated in Southgate, a pleasant residential area of Crawley, The Dell is beautifully appointed, providing very light and spacious accommodation, with a particularly large kitchen that is very useful for training in social skills.

All the other communal rooms are spacious and airy and encourage greater social interaction between the service users. As the garden is relatively new, it is hoped that the service users will be able to make choices regarding the planning and planting of new shrubs and flowers and help with the garden maintenance.

In addition, the double garage has been converted for specific use as a woodworking and arts & crafts workshop, run by the Activities Coordinator, which provides occupation for any service users within ILG who have an interest in this field.

High quality care is provided, 24 hours a day, by highly trained staff members who receive ongoing mentoring and education. The team are fully trained in all aspects of care for individuals with learning disabilities and associates needs, including medication - including administering insulin for diabetes, first aid, moving & handling and health & safety.
