

Winchester Road

Providing care and support for people with learning disabilities, located in the village of Four Marks.

- **Four bedroom residential home with a heated swimming pool**
- **Focus on independence and empowering service users with skills and choice**
- **Close to local amenities, including Alton College**

Based in the village of Four Marks, Hampshire, Winchester Road is a lively four bedroom home that offers a wide range of facilities to adults with learning disabilities and other needs.

The residents frequently attend Alton College and also participate in a wide-range of community-based activities, as organised by the local Adult Continuing Education team (ACE) to further develop their learning, social and domestic skills. They also enjoy their own hobbies and interests, with one service user enjoying music and DJ'ing, where he visits other local residential homes to host discos. A key emphasis at Winchester Road is to promote independence to all service users and encourage them to take

ownership of their own lives, closely supported by the dedicated team. As a result, some current service users independently visit the local village for shopping and for socialising in the pub.

Winchester Road has four bedrooms, a large sitting room that opens onto the rear garden, a kitchen diner and two bathrooms. The home benefits from a large back garden that has a covered and fully enclosed heated swimming pool. The home is within walking distance to the local village amenities and within a fifteen minute drive to Alton's main town centre, which offers a wide range of shops, a library and museums. A sports centre is also located on the outskirts of the town.

Staff members receive ongoing NVQ training to provide the highest quality support and care to the service users. This includes food hygiene, adult protection, medication, first aid, moving & handling and health & safety.
